COMMENTS

You may use the comment memo field to add any additional information regarding the student's homeless situation.

NOTE

Students who have been identified as homeless will remain coded as such for the entire school year.

NEXT SCHOOL YEAR

Each year students will receive the MKVH Verification Form during registration to verify the circumstances of their living situation.

Any existing Homeless records would be carried forward from the previous year with an end date before or as of the end of the academic school year.

At this time, all new students will be identified and a record will need to be added. If the student is no longer in a homeless situation, select the Homeless record and enter a **Program Participation End Date** for the record.
