

The IUSD Master Assessment Calendar provides an overview of all district and statewide assessments, including testing windows, grade levels, and department contact information.

Accessing the Master Calendar

1. Go to the [master assessment calendar](#)
(This link is also available on the intranet under Assessment & Testing)
2. Log in using your **IUSD username and password**
3. The 'All Assessments' tab includes a summary of all assessments. The 'All Surveys' tab includes a summary of annual district surveys. Department tabs include assessments by department. All information included in these tabs is summarized on the 'All Assessments' tab.

Filtering for Relevant Assessments

To preserve the integrity of the master file, we have shared this document for viewing only. While you can download a copy of the assessment calendar for sorting and filtering, downloaded copies will not reflect any changes made by departments throughout the year. We recommend instead using the filter view in Google Sheets. Directions for using this feature are below.

1. Select the filter icon and click **Create New Temporary Filter View**
2. Use the arrows above each column to filter the calendar as needed. Filter columns are shaded in teal for your convenience.

(Please note that you will need to select all applicable options under School Type and Grade Span to see all relevant assessments. For example, to see all primary elementary assessments, you would need to select 'Elementary', 'K-8', and 'TK-12' in the Grade Span column.)

The screenshot shows a Google Sheet titled "_IUSD Assessment Calendar 2018-19.xlsx". A red box labeled '1' highlights the filter icon in the top-left corner. A second red box labeled '2' highlights the filter arrow above the 'Subject' column header. The spreadsheet table below shows assessment data with teal-shaded filter arrows above each column header.
